Professional Summary

MCA student specializing in Data Analytics with hands-on experience building Python-based data analysis applications, interactive Power BI dashboards, and AI-enabled web applications. Skilled in Python, SQL, Pandas, NumPy, data cleaning, visualization, and API integration. Seeking entry-level Data Analyst, Junior Data Scientist, or analytics-focused software roles.

Technical Skills

Programming: Python, SQL, JavaScript
Data Analytics: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis, Data Visualization
BI & Visualization: Power BI, Interactive Dashboards, Chart.js
AI/ML: AI/ML Fundamentals, Gemini API, Generative AI API Integration
Web & Backend: Flask, HTML, CSS, REST APIs, Responsive Web Development
Databases & Cloud: MySQL, MongoDB, Firebase Firestore, Google Cloud / Cloud Run, AWS Fundamentals
Tools: Git, GitHub, PyCharm

Projects

AI-Powered Data Analyzer | Python, Pandas, NumPy, Flask, JavaScript, Gemini API Jul 2026 – Aug 2026
- Developed a web-based analytics platform to automate dataset profiling, data cleaning, visualization, and insight generation.
- Built dataset management, interactive charting, and dashboard-based reporting modules to turn raw CSV data into actionable findings.
- Integrated AI-assisted analysis to generate automated insights and support interpretation of dataset patterns.
- Project: Data-visualizer

Goods Consumption Analysis | Python, Power BI, SQL Jul 2025
- Created an interactive dashboard to analyze yearly goods consumption across cities and product categories from 2019 to 2023.
- Visualized city-wise sales, growth rates, demographic consumption, and category-level trends across FMCG, chemicals, electronics, automotive, and retail.
- Project: github.com/Shashtttt/Data-Analysis-projects

Property Sales Analysis | Power BI, Python Jan 2025
- Developed interactive dashboards to analyze property sales, pricing, applications, and market trends.
- Analyzed net price, saleable area, unit rate, application dates, balance units, and possession status to identify key contributors and trends.
- Project: github.com/Shashtttt/Data-Analysis-projects

Internship Experience

VaultofCodes Jun 2026 – Aug 2026
Python Programming Intern
- Completed weekly practical assignments and development tasks as part of a Python programming internship.
- Developed a Data Analyzer project covering dataset profiling, data cleaning, visualization, and insight generation.

Star App Solutions Mar 2025 – Jul 2025
Web Development & AI Intern
- Developed web applications using HTML, CSS, JavaScript, and Python.
- Integrated AI and third-party APIs to add intelligent and interactive functionality to web applications.
- Worked on practical projects involving frontend development, backend logic, and API integration.

Education

The NorthCap University, Gurugram 2027
Master of Computer Applications (MCA), Data Analytics | CGPA: 8.11

Lingayas Vidyapeeth 2025
Bachelor's Degree | 85.70%

Sherwood Convent School, CBSE 2021
Class XII | 65.28%

Sherwood Convent School, CBSE 2019
Class X | 71.20%

Certifications & Activities

- AI Foundations Associate – Oracle.
- Generative AI Professional – Oracle.

Additional Information

Relevant Coursework: Operating Systems, Data Analytics, Database Management Systems, Big Data Analytics
Languages: English, Hindi
